“Lead times are crucial for our clients, so we provide a fast, reliable service.”

▼ MACHINE SHOP

Combining hands-on knowledge and many years experience working with cutting tools and machine shop firms, we are well placed to support most applications.

We have in-house experts dedicated to the machine shop sector, always available to offer impartial advice and recommend products or services.

With an ISO 9001 accreditation for Quality Management, we aim to provide only the highest quality tooling and equipment alongside our value-added services.

We know lead times are often crucial for our clients so we ensure we provide a fast, reliable service. Our extensive in-house stockholding and efficient supply chain make sure we can deliver practically any requirement on time.

▼ KEY SERVICES

Cutting tool trials

On-site trials help clients identify the best products or equipment for their needs, with advice and guidance from our team throughout the trial period and beyond.

Tool calibration

Our experienced team can ensure power tools and other equipment are precisely adjusted and programmed for maximum productivity.

Equipment hire

We have a range of equipment available to hire on flexible agreements, including welding equipment, engineering tooling, power tools and machine-shop equipment, as well as Ursuit marine immersion suits.

Custom-made tooling

We partner with leading manufacturers to offer a bespoke tooling service, designing and making tools to clients' individual requirements.

▼ CASE STUDIES

Sub Tech Precision:

We supplied a wide range of products for this subcontracting engineering firm, including milling inserts and cutter bodies, turning inserts and tool holders, drills, spindle tooling and end mills.

"DNOW is a reliable supplier who always exceeds our expectations of quality and service; our account manager's knowledge of the products and our industry ensures we always get what we need."

Director

Alicat Workboats Ltd:

Alicat build workboats for crew transfer in the offshore and wind sector. We supplied them with turning inserts and tool holders, drills and taps, work holding and milling inserts.

"We've been using DNOW for a variety of machine shop equipment for many years and continue to do so. We've always found their service fast and friendly and their products of good quality."
